“ Nate and I worked together for many years on student loans. Somehow we always ended up on the same team and sat right next to each other. It was to vibe off each other's energy and have non-stop fun and laughs to get us through each day. I used to announce your name very loud everyday when u walked in the office as “Sidesingaaaa”. Mr. Sidesinger will be missed by many. From the times we hung out after work to the serious conversations everything is much appreciated. My condolences to the family and I'm praying for you all. R.I.H. Nate Sidesinger R.I.H.

“ Nathan was always wanting to laugh and have fun. He will be missed by many, but we can cherish the time we were able to have with him .

“ Nate ALWAYS had a smile on his face and loved to make people smile. He had the BIGGEST heart and would help anyone. He would literally give someone his last dollar to help them, even if it meant he had to go without. Anytime I picture Nate, I just picture his big smile and his laugh! It was contagious. I think my favorite memory is the night we were all at Donnericks and he met Elizabeth. He thought she was so pretty and cool! I snuck her in my car and we drove back to the apartment and those two started up the entire night laughing and talking! She was like the female version of Nate. I'm so sorry for your loss and it breaks my heart. Somethings just don't make sense.
