

## Scott E. Cochran

December 6, 1977 - December 7, 2019

Scott Elwood Cochran died December 7, 2019 in his Columbus home, one day after his 42nd birthday. Scott was preceded in death by his infant brother, Sean P. Cochran; and is survived by his parents, Annetta and Richard Cochran; his two brothers Joe Pershing and Richard Sean; Sean's wife Angela and their daughters Madison 11 and Olivia 9; and his dog Bernard.

Scott attended Wellington School and Dublin Coffman High School. He graduated from OSU with a BS degree in Industrial Design and studied design in Germany and Hong Kong.

Scott was passionate about his work and an artist at heart. He began sketching and designing furniture, lighting fixtures, and other unique art objects, working in medias such as wood, plastics, glass, iron, steel and bronze. He had his own workshop and an established company, Elwood Scott Design. He loved finding solutions for impossible problems and there was very little he could not create, design, repair or build.

Scott and his brothers loved camping, rock climbing, white water rafting, skiing, and snow boarding. "Scottman," his dad's pet name, was beginning to play golf with his father and friends. He loved this time with dad.

Scott's wish was to be cremated and some of his ashes spread along the creek at the family log cabin in Baltimore, Ohio. He loved that property and maintained it most of his life.

Scott made his journey home to heaven with Jesus Christ. He will be sorely missed and always lovingly remembered by his family, friends and Bernard. Our precious son, we shall see you again.

There will be a private Celebration of Life for family and his close friends in the future.

“ Scottie, thank you for sharing your light and beautiful gifts with the world. I still remember our adventures in Europe and HK like it was yesterday...from ziptie-ing our precious bottles of wine onto our mountain bikes in the hills of Tuscany, to trying caprese and limoncello for the first time in Rome, to hopping the trains, to traveling to Amsterdam, Lucerne, and beautiful Paris, to making new friends in HK. You showed me how to love wandering those epic museums and cathedrals, and I remember how meticulously you planned our days out so we could see and eat as much as possible everywhere we went. You loved to cook, especially Italian food, and host friends at your place in Berlin, including a Multi-Culti Thanksgiving dinner with our European classmates who'd never celebrated before.

Of course, you were such an amazing craftsman, I remember how you patiently showed me how to weld and use all the (dangerous) tools in your garage workshop so we could build our Tweely project for ID. You were never satisfied with “good enough”, it had to be perfect and your work always showed it. I miss you my friend.

To the Cochran family, I send my deepest sympathies and thank you for all the kindness and love you shared with me and our school family. I hope your son is off building new wonderful places in heaven and is at peace.

“ One of the best all time memories: I believe In early Jan, 2000 Scott and I walked together in the Hopkins design building one day after an Art 'life drawing' class we had together ...down the hall we walked and he took a look on a white piece of paper taped on a wall (he knew what he was looking at ....i didn't...) and Scottie turned to me and said 'you got in!' with his pleasant smile on his face....and I didn't know what he meant at first..when I took a closer look it was the results of the Industrial design entrance exam. He displayed an interesting character trait to me....that he wanted me to know first before he announcing himself..... He then mentioned that he got in as well and we both felt elated/and just calm standing there at the same time for a paused 10 seconds.

His birthday was Dec 6. the day after mine...which now makes more sense why we were around each other on evenings out during the first week of December on occasions during university.....His technical know how, relaxed demeanor and creative manual craftsmanship will be his legacy in my eyes.....Will remember you dearly.....most sincere solace to the family.....OSU Industrial Design Class of 2003
