“ *It is with sorrow that we see Anne's passing. As members of the original Rolling Stones rock club, we remember wonderful times rock-hounding at mines, mining geodes from the hills and going to Flint Ridge for flint specimens. As President of the rock club, Anne was very dedicated in keeping it going and keeping the members interest up with lectures and guest speakers on various topics. She would share her knowledge willingly with anyone who asked a question. Of greater importance, she passed her knowledge and passion for geology on to her sons whom we see at the Gem and Mineral Show in Columbus, Ohio.*

Please accept our condolences for your familie's loss.
