“ Tough to put together words to describe my life with a long term colleague and friend. Over the years, Bernie and I discussed the direction of ADS weighing in the pros and cons of many areas, while not always agreeing, he always honored my opinion. For sure both of us were thankful for the carrier opportunities ADS had given us in sales and marketing. Personally, Deb and I enjoyed the dinners together, sharing our family stories as we watch each other's grow over the years. For years, Bernie and I would syndicate with a couple other guys in our company football pool. While ti seemed like a lot of chance, we put quite a bit of decision in our entries, many times finding to be on part of the winning team at the end of the season. I will miss those times with Bernie as I grow older and only pray he and I will see each other later. To the entire Bernie family, thanks for sharing Bernie with us.

“ I worked with Bernie at ADS for approx. 3 years. When I came on board at ADS, Bernie was one of the first people to greet me and make me feel welcome. His smile just lit up a room and even while he was battling this horrible disease we an cancer, he always had a positive attitude. Bernie was the best that humanity has to offer. He inspired so many, myself included. My heart broke when I heard of the news of his passing, as I was sitting in church on Sunday waiting for services to begin. I'm glad I was there when I received the news, so that I could spend some private time in prayer. I was soon made aware that Bernie won his victory over this life and that his reward was a loving Father's arms in heaven, welcoming him home and saying, "Well done, my loyal and trusted servant!"

Respectfully,
