“ *Dear Davis family, Although not knowing Ms. Davis or her family personally, I would like to extend my sympathies to the family. In our society today we do not show enough concern for others, especially during difficult times such as you are experiencing. Please take comfort in knowing that the God of the Bible not only wants us to show concern for others, even strangers, but he personally intends to eliminate sickness, sorrow and death (Rev 21:3-4) in the near future. I hope you have found comfort in these brief words and the fact that soon there will be a resurrection of the “just and unjust” (Acts 24:15).*
