“ *To the family of Betty Recob - most of you I don't know and probably have never met. Betty was my 2nd cousin. She and my mother, Rita (Louderback) Fry were 1st cousins through Betty's mom, my Aunt Hilda Sands. I have many photos of my Betty, my mom, and my aunts Ruth and Juanita, when they were little children. My mom used to talk about Betty all the time and really loved her. As my mom had passed away in 2003, I did not know Betty passed until about a couple of years ago, while I was doing family research, that I came upon Betty's obituary. I was shocked but I am not surprised she lived to be 101, as Aunt Hilda was almost the same age. Please accept my condolences.*

“ *Melanie and family, my thoughts and prayers are with you. Your grandma was a beautiful lady and had the complexion of a 50 year old. Beautiful genes in the family.*
