“ *I am shocked- I was Davids neighbor at Manhattan Plaza, served on the board of the tenants association with him and valued his friendship. He was a very kind and generous soul and is sorely missed.*

“ *To David's family: I met David at the GeVa Theatre in Rochester many years ago, where I worked for him as a production assistant. We remained friends while we were both residing in NYC. I've been living in Kentucky for the past 30 years, but we remained in touch. David was a generous and dear friend. I will cherish my memories of him and miss him greatly. May peace be with you, David, and with all your friends and family.*
