“ *Kyle and I met as freshman at Kilbourne and remained friends ever since. He was one of the most uniquely talented and hilarious humans I've ever had the fortune of befriending. Life won't be the same without his presence.*

“ *I met him at Buca di beppo in early 2000's and got to know him very well, always had a great outlook and cracked jokes a lot, kept in touch and I owned a pizza shop he came and delivered pizzas to make some extra cash but it was good being back around him, so creative and talented, he sent us one of his books and we read it to our kids, such a shame, I'll miss him.*
