“ *I would meet with Don every single Saturday at the gym, we would talk sports or whatever caught our fancy, mostly food or the Buckeyes! I will miss him so much, what a great friend, so glad I was able to meet Don, if people had half his ambition and fight, the world would be better. Miss you so much my friend! Blake*

“ Please accept my condolences in your loss. I met Don when he would volunteer to help with Soup for the Soul. He regularly brought an item or a soup, and often helped by driving down to the Church for All People to serve. I see now that this was just part of who he was. May God send you his Peace and hold your family close.

“ Our condolences to Don’s family. We hadn’t known him long - joined Jerome Church about 3 years ago - and Don always sat in the pew in front of us. He was so welcoming and such a kind, soft-spoken, kind and gentle man. We will miss him when services begin again.

“ Don and Regina were our neighbors since 2006. We became really close to Don after Regina passed. He was the very best neighbor, and we will miss him very much. He was a very generous man. He wasn't one to stay home...always up for adventure. He took on the responsibility of posting flags in the neighborhood on the appropriate holidays. He loved a good joke! Sending prayers for peace and comfort to his family. Rest in peace, friend. You lived a good life!

“ My sincere condolences to your family. I am a friend of Donald's daughter Sandy. I have not spent much time with the family but the time I have spent was welcoming and full of laughter. At Christmas celebrations I was able to meet Sandy's beautiful family and experience their warmth and kindness. During trips to Port Clinton, Sandy our friend Cindy and I would take a drive to the military base were Sandy so fondly remembers spending time with her family and friends. When Sandy speaks of her father it is always with pride and reverence. I know Sandy will miss her dad and this time is hard. The comforting thing is knowing she has wonderful memories of the man that helped her become the woman she is today. That woman is a caring and thoughtful daughter, wife, mother and I am happy to say friend. Jacki Jones

“ That man was a gem and I will be in line when we go back to the office to share stories of his awesome life. My Mom waited until all the kids were away to go away. She never liked a scene. I think your Dad felt your love. It transcends the physical.
