

## Dr. K. M. Sirajul Islam

November 1, 1933 - January 9, 2016

Dr. K. M. Sirajul Islam, 82, beloved elder son of Khan M. Mohsin Ali and Shamsunnesa Khanam, passed away on the early morning of Jan 9, 2016 during his sleep. He is survived by his devoted wife of 52 years, Akhter Islam; caring and responsible son, Shaheen Islam, MD; loving daughters Dr. Sehela Islam & Renaissance Islam and six grandchildren. He obtained his PhD from University of Glasgow in X-ray Crystallography in 1967. Throughout his bright, active career, he, as an educationist and scientist engaged himself in doing different innovative and useful works for the people of Bangladesh, where he is originated from. Among some of his successful achievements in Bangladesh as a founder are- the Museum of Science & Technology, the concept of distance education, the Institute for training Kindergarten teachers. He also was instrumental in forming Astronomical Society of Bangladesh. He spent his last few years in Columbus, Ohio with his only son. May God bless his departed soul.

“ *My heartfelt respect to the departed soul of Dr K M Sirajul Islam . I was extremely fortunate to have worked under him in BIDE, which later culminated into Bangladesh Open University, the brainchild of Dr Islam. My condolences to his bereaved family . Bangladesh has lost a brilliant scholar, academician and a stalwart in the field of Education . But unfortunately, his genius was not duly acknowledged. He was a role model for us all ! May he rest in eternal peace.....*
