

Eugene Vasilievich Pertsev

December 17, 1948 - March 3, 2022

Eugene Vasilievich Pertsev was born on December 17th, 1948 in the village of Piatnitskoye, Chuguyev district, Kharkiv region, in the Ukrainian Soviet Socialist republic, which is now Ukraine. Avid in studies and passionate about nature, he graduated from the college of Forestry, then got his bachelors in Kharkiv institute of Forestry and Natural Resources, and finally got his PhD in Forestry and Land reclamation. After this, he spent years working to better the natural environment we live in and depend on. He left Ukraine in the spring of 2000 for the US, where he settled and became a citizen. Even though it was not easy for him as an immigrant in the beginning, he loved living in Ohio. Farmlands and forests around our beautiful state reminded him of Ukraine. It was a perfect place to plant trees, do gardening and bee-keeping, which he utterly enjoyed. A hard worker, he had great plans for expanding his bee-keeping hobby into a business, and was looking forward to leasing a bigger size of land in the country to start a large fruit tree garden. He always took a great interest in what was going on in the world, and lately was devastated by the news of the war between Russia and Ukraine, hoping for a peaceful resolution of the conflict. All of this came to stop with his untimely and unexpected passing. His wife, children, grand-children, and friends will miss him indescribably, and will think of him always when looking at the trees or flowers, hearing or seeing bees buzzing by, tasting honey, looking at the clear blue skies, feeling the wind gushing by, or when discussing politics. He is so missed. Peace to all.
