“ *My sincere condolences to Phyllis & family. I had the pleasure of working with Frank during his days at ABB found him to be an excellent role model and a man of integrity in the workplace. It was a real bonus to then find him at WCC in recent years when my wife Beth & I began attending there. Frank touched a lot of lives in a very positive and uplifting way. We'll miss him!*

“ *Dear Wolf family, I want to extend my condolences regarding your loss. Although not knowing Mr. Wolf or your family personally my heart extends to anyone who has lost a loved one in death. It's beautiful to see someone that is surrounded by family and you can be there to support each other during this difficult period. We can take comfort in God's Word the Bible that soon "death will be no more" (Rev 21:3-4) and soon there will be a resurrection of the "just and unjust" (Acts 24:15. My sympathies to you all.*

“ To Phyllis and all the rest of Frank's family: Frank was my trusted, appreciated, and interesting companion for many years at AccuRay. He was always helpful in solving technical problems, and fun to share time with during coffee breaks in that small cafeteria. I've made sure that some of his other friends and associates are aware of his passing.

“ Frank worked tirelessly for young people, and volunteered for over 50 years in the Columbus Technical Council, an organization that recognizes math and science achievement in students. He loved to present the awards to the kids, and to make sure that their accomplishments got top billing. His heart was always in the right place, and he will be deeply missed.
