“ Hi!! First of all congratulations on your great site. When I first got married I discovered on my husbands cell phone bill a number which kept repeating itself with many minutes of call time. I got suspicious of his ex and called the number and a child answered I immediately asked for his moms name and surely enough it was her. She was making calls to my husband and he was calling her also. I got pretty mad and told her off as well as my husband I gave him an opportunity if he ended this. Well he did, but I can't seem to trust him now. Sometimes I check his bill and her number has never shown up again, but what if she changed it? and is still calling him? How can I eavesdrop on his cell phone conversations and find out?, please help me . I find some numbers on his cell bill but I can't keep on calling everyone. He is a sales person so he has many numbers that call him. I will appreciate very much your help.thank youkrystal
