MN

“ When I arrived in Columbus in 1986, George was one of the first people I met in the industry. He welcomed me to the community and I am honored to have known and worked with George my entire career. He was the ultimate professional, knowledgeable and most importantly fair. He was a kind, true gentleman and I am sad to see him pass so early. My sympathy to the family.

“ Everyone that worked with George over the years, knew what a great guy he was.....smart, fair and a CM that truly wanted to get the project done! He will be missed by everyone that called him a friend, including me. Thoughts and prayers for Kathy!

“ I will never forget the conversations that George and I had at DRWP. He was so levelheaded, sensible, and fair. A man full of justness and integrity. We will be praying for Kathy and the family.

DS

“ George was truly a great guy. He never let his authority go to his head like a lot of people in his position did. The world would be a better place if everyone were more like George !!
