“ *I loved your Mom and Dad so much! They gave me my first babysitting job and trusted me with you girls. We had so much fun together! I always enjoyed my visits with them when I would come home. Your dads puns and jokes and your mom's sweet laugh! She was always so interested in knowing about me and my family. I am happy she is reunited with your dad I can picture them laughing together!
Hugs to you all! You will always hold a special place in my heart.*

“ *No matter how prepared you think you are, it's so very different when we no longer have their physical presence in our lives. Tom and I send our love to all of you. Geor was such a very sweet and loving person, and she made such an effort to bring family together, which clearly fed her spirit.*
