“ *I was saddened to here of Dr. Sarnovsky's passing. I was an RN at Lima Memorial Hospital. After a year's preparation, I was supposedly his first patient at this hospital to have a maxillary osteotomy. He was such a pleasant man and a wonderful physician. During the 2 and a half months that my jaw was immobilized, he showed such genuine concern for me. He was very honest with me explaining that while the surgery to correct my bite would be successful, my teeth might one day loosen. Whenever I would see him at the hospital, he would stop and ask to see my teeth, would give a gentle tug to see if they remained secure. Several years later, he did have to perform a full upper extraction. Again, he was so compassionate as he knew how I hated the thought of loosing my teeth. I never saw him angry, always treated others with respect and always smiled. Again, so sorry for your loss*
