“ Our family was so blessed to have Dr Gallaher as our pediatrician for 18 years. Our two now college aged daughters saw her for every annual physical, every sports injury, every sick visit , every vaccination. She guided me as a parent through the "terrible twos" to the "wonderful teens", with wisdom and patience and kindness. She was a wonderful listener, paid attention to important details, and calmed my fears many times over the years. I said thank you so much after every visit, but now wish I had said it more often, and more fervently. Because that is how I felt. Every family should have a pediatrician like her...we are in her debt, and our hearts are so saddened. We send her family our love and prayers.

“ Dear Pete and Family, We are sad to hear tonight of Jan's passing earlier this month. We are grateful for the time of knowing her at St. Michael's, singing with her in the choir, our mutual fraternal membership in the Knights of Columbus, and in her hospitality in your home. She touched all of our hearts. Please know we will keep you and your loved ones in our prayers. In Christ, Michelle & Ray

“ I am so saddened to hear about Dr. Gallagher's passing. I am a former patient and the mother of two young sons who were recently her patients as well - she affectionately referred to them as her "grandpatients." Dr. Gallagher not only cared for my health during my adolescent years, but she was a great role model and inspired me to become a physician. I will fondly remember her each day that I practice medicine. My prayers and thoughts are with you all. God bless.

“ *Dr. Gallagher was one of the kindest people I have ever had the opportunity to meet. When our sons didn't want to come in for their annual physicals our oldest asked her if she would have lunch with us. She did. Every year, for several years, when we would come in for the annual big check up we would have a picnic with her before or after our appointments. She didn't have to go out of her way, but she did. I am greatly saddened to hear of her passing and want her family to know that they are in our prayers.*

“ *I remember Janice well from her pediatric residency - that was a long time ago and we had lost contact. She was a great resident and as expected, a wonderful physician. We lost her far too soon.*

“ To all of the family, I had the privilege of working with Dr. Gallagher 11 1/2 years ago for a year doing nothing but weekends in her practice. Things I will always remember, besides her being an outstanding pediatrician and relating to all of her little people and families. The cute little flower pot on her desk that she would keep filled with homegrown flowers that added just a touch of sunshine to her office. Her different pins that she wore every day and they all seemed to have a different story behind them....it made me smile!!! Being invited to her home with the office and just relaxing.....It is with a prayer and remembrance that I am thankful for the limited time with Dr. Gallagher. I was blessed! Sincerely, Joyce Gassin RN
