“ *I enjoyed sitting with Jan at many of our golf lunches. She was so much fun and a wonderful volunteer and hostess for the ladies at York Golf Club. She is missed. My thoughts are with you, her family, at this time.*

“ *My Condolences to Jan's wonderful family. You were always in her thoughts.*

I was a golfing partner with Jan. I will remember her pleasant smile, even temper, and willingness to take on many responsibilities.

May your Wonderful memories comfort you all...

“ I knew Janice as a friend and co-worker with the National Ground Water Association over a period of 10 years. She was a very special, one-of-a-kind person with an amazing personality and ability to talk with anyone. She hosted several of the former NGWA women in a reunion at her lovely home a few years back. I don't know the family well, but I'm sure they will keep Janice's memory alive and happy, just as she was.

My deep sympathy to all in your loss.

“ *Janice was my good friend for forty years. We met through our husbands who were friends since high school.*

Jan and I had little in common. She had all these kids and I had none.....she was the last to leave any party and I was the first to leave. But we bonded.

Her greatest accomplishment is her wonderful children. She and Dick blended their two families into a big, fun and caring group. There was always something happening. Birthdays, weddings or holidays. Stacked Christmas presents for everybody often were higher than the Christmas tree!

The kids have always been there for her and I know of none better. I pray they will remain close.

Janice was a wonderful friend, hostess and person. She passed through every stage of her life with grace.

We will always love and remember her.

I knew and worked with Janice at the National Ground Water Association. She always had a smile and friendly word for everyone. I remember many wonderful times with her - going out for dinners with staff and laughing together. My thoughts go out to her family in their loss.
