“ Oh Jeff... I recently found out that you have left this plane. I have many memories of you. However, I will never forget that hot summer night when I was living on West Lakeview... It was very late in the evening. You knew my Rottweiler, Shaka... Which is how you were able to get past her as you opened the living room window so you could get in my house!
Ever so silently, you & Shaka crept upstairs... To my bedroom... And scared the living shit out of me

“ Jeff was a great guy and always had a friendly smile to share. Although I didn't know him very long, we both shared the morning shift at Paddy Mac's Pub. He will be sorely missed by many and he will always have a seat at the pub.

“ Starting when my husband got sick, Jeff started helping us take care of the Lustron on Kanawha. He was incredibly faithful in terms of moving grass, breaking up the fall leaves with the mover and keeping the snow off the car pad. He even helped anchor down the roof when we found an old Lustron memo that suggested that it was a good idea to put a screw in a certain place to keep the panels from blowing away in the high winds. The house would not be in the good shape it is without his willingness to use his construction skills to a slightly different purpose. I think Jeff helped a lot of folks do a number of odd jobs, and he will leave a hole in those folks lives.
