“ *My dear brother Jack. You will be sorely missed. You I both know that this goes without saying but I truly loved and respected you as my big brother. Lots of tears and love from the kids as well. Jacob says he always appreciates how you would stop in or call to check on them. There are no true words to express what a genuinely nice caring person you were and I think many times you were not given recognition for your simple kind gestures. I want everyone to know what an unsung hero you were. You took any blunt and burden off of you siblings growing up, handled yourself with your head held high and continued to carry yourself that way for the rest of you years, no matter what life threw at you. And for that, I am proud to say you were my big brother. Miss and Love you always*
