“ *Dear Kowalski Family, I am so sad to hear of John's passing. I worked for John at OhioHealth for a number of years and learned much from him. We had many laughs and good times and I will miss John. My love and prayers are with you.*

“ *Dear Kowalski Family, I was so very sorry to hear about John's passing, I know you lost a beloved brother, father and family member and I have lost a dear friend that I will forever love and remember! I am very happy that John made it to Richmond to play in my member-guest golf tournament this past June. Even, though he was in great pain, he played amazingly well, we placed second in our flight and had a ball! I truly wish I could be there with you to celebrate John's life, but with a historic snow storm, I am unable to make the trip at the last moment, but I will be there in spirit and we'll certainly celebrate John's life the way we always celebrated...with a couple of beers and a toast to my best friend Joe (our inside joke of a name for each other)! Michael, I know that your father loved you very much and you are the most important thing in his life, so please remember that and please let me know if I can ever do anything for you. I will miss him desperately, but fortunately I have many good times to remember and I know you all do as well! Rest easy John and God bless you all! Love you man... “ I was surprised and saddened to hear the news about John. I would like to share my condolences with the Kowalski Family. John and I were childhood friends and neighbors. We kept in contact until we were in our early twenties and life took us in different directions and lost contact. I often thought about John and the fun we had when we were kids. Through out the years I often thought about him and wondered how he was doing. About two months ago I started thinking about him again and wondered what had happened to him so I searched the Web and tried to find him to see where he lived and what he might be doing. I looked for a while and could not find him. I was very busy with work and family and stopped looking for the time being. I wish I would have kept looking because something was telling me to make contact with John. I wish I would have been able to meet up with him and relive old times we shared as kids. I don't know what happened to John, whether it was a long illness or a sudden death but I hope he had a full happy life filled with lots of rewards and love.
