“ *We are so sorry for your loss. She was a beautiful lady who always had a smile and took time to say hello to you when she lived here in Covington. May God bless you and take special care of each and everyone of you during this difficult time.*

“ *The Girouard family has always been an integral part of the Hagan family. I cherish the memories and the relationship I had with Doc and Kathy both professionally and personally. I love you all and you are welcome at my house anytime.*

“ We want to express our deep respect and admiration for your mother, Kathy. She was a role model for many women in Covington. She was selfless, loving, smart, and dedicated to her husband and her children and later grandchildren, and yet she had an independent spirit that we all loved. She once told us a story about your father and Danny. Your father Robert was in his office with patients. Kathy, a nurse, was with her young son Danny who was ill with a temperature of 103. She called her husband to let him know and Doc said to her on the phone, "Not now, I am busy with patients. " She told that story in your backyard on Pearl St, many years ago as she was laughing about it. She was a grand lady of St. Louis and Covington and will always be remembered and respected by all who knew her.
