“ Professor Fricke: you taught statistics at Franklin University. Sadly, I learned very little about statistics...what I did learn was your recipe for mushroom and sausage stuffing, which I have made every thanksgiving for 13 years in your honor. And how deeply you loved your mother, and how much you loved the memory of her delicate chocolate tortes. I should have known you were a deacon; your heart shown like pure gold. I will never, ever forget you.

“ Deacon Fricke was a truly great man. I have been honored by my mere knowing of him, since my youth. My deepest sympathies go out to Mrs. Fricke, Chris and Michael. You are in my thoughts and prayers, as is your father. I feel absolutely terrible that my life is so busy that I could not make time to honor his life with my presence at his wake of funeral...I will make up for it with prayer. God bless you all!

“ I’m so grateful to have known him from my childhood into adulthood from St. Michael’s. I was an alter server for over a decade. And he was my favorite deacon (don’t tell the others). Our love of mathematics and statistics bonded us through my collegiate years. He celebrated my wedding to my husband Josh in 2016, and had met three of my four babies. (Klaus say a prayer for this one coming in March - I so wish you could meet him too.) We loved running into you in our Columbus trips, mostly at the festival and holiday Masses. You are so well loved, and have so many prayers coming your way - and your family’s way. Thanks for all the memories.

The Fricke family has always held a special place in my heart. Chris and Mike, I remember you well as great students and sweet boys in my 4th grade classroom at SMS. Sharon, you are so kind and loving. Klaus married my husband Dan and I in November of 2003. He was so gracious, always friendly and kept me informed over the years of the whereabouts and growth of his wonderful sons. Bless you all! May he be welcomed with a chorus of angels in his heavenly home. Love, Mrs. Green(now Mrs. Madigan)

“ I have memories of Klaus from when we worked at Ohio Bell and when we took classes at Franklin University. Without a doubt, he was one of the nicest and most intelligent people I have had the privilege of knowing.
