“ *Marion was kind enough to introduce me to to "I AM" activity at the St. Germain Sanctuary here in Columbus in the mid-90's. I was always struck by her passion for the "I AM" activity, even at her advanced age. She manifested a saintly presence continually which always reminded me of the certainty of her spiritual convictions, & the authenticity of her unique path. To say that she has "ascended" indeed is reason for rejoicing, she has achieved self-realisation in her lifetime, & now can work for the liberation of all earth-bound souls in the company of the Ascended Masters, whose guidance & teachings she always shared with others. All of us in the Central Ohio community have been blessed & enriched by her having made Columbus the home to her great spiritual quest! SHE IS RISEN!*
