

## Owen Edward Buxton

October 23, 2013

### BUXTON

Owen "Ed" Buxton, Jr., 88, of Columbus, passed away suddenly, but peacefully, on Wednesday, October 23, 2013. Dad was a WWII veteran in the Army-Air Corps. He was a professor of mechanical engineering at The Ohio State University for 25 years and was an international engineering consultant for the American Society of Mechanical Engineers for 35 years. Dad was an avid bridge player, enjoyed everything about aviation, and loved traveling all over the world. He was a long-time coach of the Worthington Steel traveling baseball team. Dad was loved by all and will be sadly missed. United in death with his loving wife Marti, he is survived by his children: George (Sheila), Bruce (Molly), Joanne (Wes) Corazalla, Mark (Debbie) and Sheryl (Eric) Jones; 13 grandchildren; and 11 great-grandchildren. Visitation will be held from 12:00 Noon -2:00pm. SUNDAY, OCTOBER 27, 2013 at the RUTHERFORD FUNERAL HOME AT POWELL, 450 West Olentangy Street (Powell Rd./SR 750 ¼ mile east of Sawmill Parkway.), Powell, OH 43065 (614)-792-1471 with the Funeral Service at 2:00pm. Burial will follow at Oller Cemetery. In lieu of flowers, donations may be made to: The American Diabetes Association, 471 East Broad Street, Columbus, OH 43215 (614)-436-1917 [www.diabetes.org](http://www.diabetes.org). Please visit [www.rutherfordfuneralhomes.com](http://www.rutherfordfuneralhomes.com) to send condolences to the Buxton Family

“ To the Buxton Family,  
I had the privilege of working with Ed (as I knew him) a number of times when he audited the National Board Test Lab. Although serious about his work, he always seemed to have a smile on his face, and did a great job of making others feel at ease. I also enjoyed the bits of his "flashy" side that he enjoyed coming here with. Our condolences on your loss.  
Sincerely  
Joseph Ball

“ Hi George: This is Steve Graham. I worked for your father testing safety valves from about 1969-1974 and with you one summer rebuilding valves in Robinson lab. I am sorry to hear about your Dad's passing. He was fun to work with, taught me a lot and was very helpful keeping a poor college boy (me) from being broke. Again, you have my condolence.

GB

*Hello Steve, Thank you so much, belatedly, for your truthful remarks about my Father. Gread Engineers "teach" and Far Greater Engineers "Do". My Dad accomplished both with exemplary work, combined with his unique style and flare, until his illness finally overtook him. And while in the nursing home, for about a year, he lived with formidable strength, until the end. I continue to miss him and may always will. I can't thank you enough for your kind acknowledgment stated above. I wish you the very best, as he would. George*

“*Please accept my condolences on the loss of your dear loved one. Take comfort in knowing that our heavenly Creator will soon remove all pain, sorrow, and death forever! May this promise as recorded in Revelation 21:3,4 be of comfort to you as you gain the strength and inner peace to cope with the days ahead. Philippians 4:13.*”
