“ I remember when Patti branded Stan in the late 80s. It was an afterhours party post a New Druids gig back at our house. We were all watching a bootleg of the YES at QPR show from their 1975 tour. They were playing "And You And I" and Chris Squire (Stan's hero) did one of his leaps while playing and singing two rhythmically separate parts. Patti looked at Stan and said "that's you." He was an easy mark after that.
