“ With a great deal of sadness I read of the death of Bob in today's paper. In 1966, as young black man moving to Columbus from Durham, NC, Bob hired me as a draftsman trainee for Columbia Gas. His support and mentoring not only helped me during the difficulty I experienced during that period of my life, it positioned me for an outstanding career with Columbia. His influenced resulted in me joining the Marine Corps and serving in Vietnam, which helped my development as a man. I will be forever thankful for the role Bob played in my life. My prayers and thoughts go out to his family in this time of great sorrow. He was a great man! May he rest in peace. SEMPER FIDELIS Wendell Hancock

“ Very sad to hear the passing of R.T. He should be held up as a model for all surveyors and involved citizens. I will keep fond memories of R.T. tending the bar at the PLSO conventions - there was never a dull moment or boring story. Peace of Christ to R.T. and his family.

“ My wife and I wish to express our sincere condolences to all of you in RT's family. He was a mentor, colleague, friend, and just a fun guy to be around. This world will never be quite the same without him here, but I'll bet he's already on the course in the life hereafter.
