“ *I cannot begin to say how sorry I am about Dr. Tootle. Loved the man and loved his work!!! He brought me a long way in my dentistry work. On top of that, it was such a pleasure to talk to him about gardening and his travels. I would run into him often at DeMonye's and he always seemed to know what he was looking for. When I would tell people he was my dentist-everyone, including some of my friends who are dentists, would say I picked the best. I am sure he will be sorely missed by many. Jeff Ruff*

“ My sympathy to Bob's family. He was an enormous influence and role model for at least two generations of dentists, through his clinical prowess, his communication and people skills, his curiosity, and his interest in teaching. A repeating scene in my own career has been a lecture room somewhere, with Bob standing in the front instructing or presenting an informative speaker. It is not going to be the same without him.
