

## Robin Reeves Jenney

July 8, 1950 - January 28, 2023

Robin Reeves Jenney died at his home in Columbus, Ohio on Saturday, January 28, 2023. Robin was born July 8, 1950 in Mt. Holly, N.J. to Hope Cole Reeves and Robert Jenney. He was raised in Pemberton, N.J. and in Worthington, Ohio, graduated from Worthington High School in 1968 and attended The Ohio State University. He graduated with Honors from Columbus Technical Institute in 1976 with an associate degree in electrical engineering technology. Robin was a kind, sociable, fun-loving man with a great sense of humor. He loved music, sports, cars and travel. His greatest passion in life was his career as a recording engineer. He had a natural gift for it, which earned him several awards and platinum records with such well-known performers as Natalie Cole, Midnight Star, Bootsie Collins, ZAPP, Teddy Pendergrass and Shaquille O'Neal. He was employed for more than thirty years as a recording engineer, specifically at Owl Recording Studios (Columbus, Ohio), Fifth Floor Recording Studio (Cincinnati, Ohio), Full Sail University (Chicago, ILL. and Winter Park, FLA.) and Sweetwater Productions (Fort Wayne, IND.). He also played guitar in several bands throughout his life. Robin was an avid skier and traveled to Colorado and California in search of snow and beautiful scenery. Other adventures took him to Mexico, Italy, Hawaii, Aruba, and Jamaica, and he enjoyed taking photos wherever he roamed. Robin struggled in recent years with cancer, chronic fatigue syndrome and sarcoidosis, all of which were very challenging for him. He worked hard to overcome his illnesses, and always kept his sense of humor,

his love of life and his optimism throughout the pain and suffering he endured. Robin is survived by his sister, Cheryl Beth Bair, (Athens, Ohio); nephews, Samuel Adam Bair and Matthew Richard Bair (Alexandria, Va.); and niece, Aimee Hope Bothwell (New Albany, Ohio). He is preceded in death by his parents, Hope Reeves Comar and Robert Francis Comar (Worthington, Ohio); brother, Richard Arthur Comar (Columbus, Ohio); and sister, Ellen Hope Comar (New Albany, Ohio). Robin will be remembered as a thoughtful, loving brother, uncle, and son, and a dear friend to many. He will be greatly missed by all who knew him. The family would also like to thank Abbie Turner for her dedicated help, care and friendship with Robin. A memorial service will be held at a later date. In lieu of flowers, contributions in Robin's memory may be made to: American ME and CFS Society P.O. Box 26 Whately, MA 01093. Or, you can donate online at [ammes.org/donate](http://ammes.org/donate).

# Tribute Wall

“ Cheryl, I am sorry for your loss. Robin worked with me as my driver and personal assistant 10 years ago or so. I considered him a friend and even after that we stayed in touch for while after that. I lost his number when I switched phones and since he moved I couldn't just stop in. I've been meaning to track him down for some time now and I thought of it today and was saddened to discover he had passed away. I always enjoyed working with Robin.

*Now that I think about it, maybe it was more like 15 years ago.*

“ To Robin's family - I was very sorry to hear of his passing. Please accept my sincere condolences and deepest sympathy. I am always saddened to hear of the passing of any of my classmates from Worthington High School.

*Although I have not seen or spoken to Robin since our school days, I remember him very well. He and I were both part of the local high school garage band explosion of the mid 60's. As we learned and perfected our guitar playing, we were immersed in the songs of the Byrds, Animals, Stones, and many others. It was a wonderful time! I still have the bass guitar I played at that time, and I still play bass to this day.*

*I was glad to hear that Robin went on as a musician, and later became a recording engineer. I knew that he was destined for that type of future! It appears he was very successful and certainly made a permanent mark on the world! I'm glad to have known him.*

*Rest in Peace*

*Thank you for your comments, Ron. So good to hear from one of his bandmates. Yes, he was a big part of that scene, back in the day. And he loved to reminisce about those times. They were special times, indeed. I found a framed picture of the band The Grayps in his kitchen! Ha!*

“ I have many fond memories of Robin. One of my favorites is in the studio recording and the top-shelf engineer that he was, stopped the track abruptly and I asked ‘What’s up?’ he said ‘I pushed the button and nothing happened! I don’t know what’s going on.’ We laughed at that one and it’s still one of my favorite tension-breakers to use in the studio. Love you and miss you Robin.
