“ *My condolence to the Brenneman family. I'm glad that I got to know Ron personally for 4 1/2 years at Allied and worked along side with him. He was a professional inside and out and he had a great interest in growing our engineering staff with 3-D CAD knowledge and capability for our company's annual trade show. Thanks to him for guiding my career path beyond Allied to my highest potential beyond my wildest dreams!*

“ *My deep condolences. I had couple jobs and trips together with Ron; he was an excepcional professional and very decent person. ON my early days at the company, I remmember to be assigned to translate his presentation once and got amazed me his pacience, kindness, sense of perfection and above all, his happiness on doing his job. We will miss the engineer and above all the good friend.*

“ *I am so very sorry for your loss. He was the sweetest man ever. We would talk fishing a lot when I lived in West Liberty. He liked the Mad River to fly fish. My thoughts and prayers are with you. Janice Wood (Allied Mineral Products)*

“ To: The Family of Ronnie Brenneman and every one who knew Ron, I have to say that Ron was a man of men. There will never be another like him. I was proud to have him as a life long friend. He was as tough as they come and as gentle as a trout hiding under an overhanging tree limb. He loved the great outdoors and a loving father and husband. I wish his family well and to be strong as he would wan't you to be. He is a big loss to humanity. brian c willard

“ I just want to tell all what a special person Ron was. I have been connected with the refractories industry for almost 40 years and have been acquainted with Ron most of those years. I had the good fortune to be able to work with Ron at Allied for the last six years. He and I were planning a trip to Ashland Steel this month and I was so looking forward to it. His great personality, kindness and dedication will be greatly missed. Like so many of you, this is very difficult to accept since he was such a fighter against this horrible disease. I will miss him as a friend and fellow worker so very much.
