“ *Sloan was an inspiring soul and had so much light on my life. My experience at the ERC in Colorado would not have been as wonderful as it was without her. Sloan and I grew very close during the time we were together. I'll always appreciate her as someone who was always there no matter the case, and she would never judge a single person. Condolences to Sloan's family as they grieve the loss of such a great person.*

“ Emma & family, We are so deeply sorry for your loss. Sloan was such a wonderful young lady with an infectious smile. She could brighten anyone's day. We will all miss her at lacona's. Prayers are with you all. A fond memory is when Sloan returned home last year from Denver we ran into her at Sam's Club. She ran up to us and said, " My 1st lacona's family to see" and gave us big hugs. I will always treasure that hug.

“ We did not know your daughter Sloan, but we have had difficult times like you're going through right now. My wife and I lost two sons in years past. One was 21 when he was killed in a wreck while on a motorcycle and the other was 19 when he was killed in an electrical accident. . You may not think so in the next few weeks, but as time passes you will be able to think more on the good times that you had together and less about loosing your daughter. We cherish the memories of our boys. It is always good to hear people remember and name the one you've lost. Sloan will not be forgotten by friends and I hope they'll have the courage to talk of her with you. May God comfort you.

“ We were blessed to have met Sloan in Denver where she and my daughter had become very good friends and continued to be until her passing. We were able to spend time with this adorable young woman and appreciated her spirit and commitment to their shared struggle. I will always think of her when my daughter wears her cowboy boots. Certainly, there are no words to write to soothe the unspeakable loss of this beautiful daughter, granddaughter, sister, relative, and friend. She will be forever remembered in so many hearts.
