

Storm Ann Dunham

April 29, 2012

DUNHAM Storm Ann Dunham, age 54 of Columbus, Ohio passed away on April 29, 2012. She leaves behind the love of her life, husband Mike, and her two loving children, Kevin and Kelly. A graduate of Franklin University with a B.S. in Business Administration, she dedicated her life to the well being of her family for which they are eternally grateful. She unselfishly donated her time and her prodigious organizational skills to her children's academic and recreational pursuits for twenty-five years in the Dublin School District. Funeral Service 8:00 p.m. Friday, May 4, 2012 at RUTHERFORD-CORBIN FUNERAL HOME, 515 High Street, Worthington, OH 43085 where friends may call 6-8 p.m. Fr. Paul Hrezo officiating. Contributions may be made to OhioHealth HomeReach Hospice in her memory. Condolences may be sent to family at www.rutherfordfuneralhome.com.

“ De classificatie van luktactwhliteit is gebasseerd op de uitkomsten van BEA. Als je dit leest gaat BEA uit van standaard emissies bij een bepaald staltype of uitrijmethode van mest. Dit houdt onvoldoende rekening met verschil in bedrijfsvoering. Op ons bedrijf wordt eiwitarm en struktuurrijk gevoerd wat resulteert in mest met een laag TAN gehalte. De ammoniakale N in de mest schommelt tussen de 1,2 en 1,6 (verschillende jaren) per kuub mest. Wij hebben een aantal jaren door de gezondheidsdienst stalemissie metingen laten verrichten en scoorden hiermee tussen de 0,9 en 2,5 kg ammoniak per dier per stalperiode. Dit is ruim onder de groenlabelstal norm zonder dat wij een emissie arm stalsysteem hebben. Ook is bekend via wetenschappelijk onderzoek bij de familie Spruit dat slim bovengronds uitrijden van dit soort mest slechts een emissie geeft van 18% in plaats van de 70% van de ammoniak die standaard wordt berekend. Ook is bekend dat het emissie arm aanwenden van mest onder ongunstige omstandigheden (zon en wind) en bij langer meten juist veel hogere emissies laat zien. Als via BEA alleen maar met dit soort standaard emissies wordt gerekent vind ik deze totaal onbetrouwbaar. Veel beter is om naar de totale stikstofbenutting te kijken. N benutting aanvoer N afvoer N milieubelasting krachtvoer/kunstmest melk/vlees per ha per ha per ha %15% 500 75 425 10025% 300 75 225 5340% 188 75 113 2650% 150 75 75 1875% 100 75 25 6100% 75 75 0 0 Pas bij een stikstofbenutting van meer 45% wordt de totale milieubelasting (ammoniak, lachgas en uitspoeling) verminderd met meer dan 80%. Dit zegt veel meer dan een cijfer gebasseerd op theoretische aannames.

“ Mike, Kelly and Kevin, I was just devastated to hear of your mother and wife's passing. I have wonderful memories of her rushing into DMS with treats and cookies, organizing feasts and team dinners, and volunteering hours of her time to help children. She was an exemplary woman who leaves a wonderful legacy in her children. God bless you all during this difficult time.

“ Mike, Kevin and Kelly, we grieve with you at the loss of Storm. It is still very difficult for us to grasp. I will remember our summers in your driveway watching the girls play, the special Halloween goodie bags she always had for Laura and Bree and her unwavering dedication to family and community. Storm has found her peace. You will as well in the coming days.
