“ Trever was my preceptor in EMT and Medic school and we stayed in touch even after I graduated. I have two favorite memories of Trever and that was during megacode practice he kept throwing erasers at me to distract because he said I'd always be distracted in the medic and to get him to stop I threw my pen at him and he just said “oh you're gonna regret that.” Needless to say I failed the next two rhythms because we hadn't learned them yet. The other one was practicing how to feel for intercostal space to needle decompress and he had us feel on his chest and we were barely pushing. He was like “push, you can't hurt me!” We all got red but I'll always remember my rhythms and where to decompress thanks to Murph and look over us and have a Jameson and we'll take it from here. Love you brother!

“ Trevor and I stood next to each other everyday in band. He was part of our trio. I will always remember him as an upbeat, encouraging soul. He cared so much for everyone. In the years since we graduated it looks like he went on to do great great things helping people. Lots of people. He will be missed by so many. I am glad to have got to know him.

I never like to say good bye because its not the end. See ya later Trevor, we will take it from here.

“ Trever and I went through medic school together. We get to know one another pretty well. I will always remember his smile. He was always smiling. Upbeat and full of energy. He could make anyone smile with his personality. He was a special guy. I will regret as long as I live that I didn't stay in contact with him. I am going to miss reading his posts on FB. Seeing how he is doing. I will be making an effort to keep in contact with my friends more now. My heart goes out to all your friends and family. You have touched many lives along the way. You were loved very much. I'll miss you Trever. Until we meet again. Rest in piece my friend. ❤️❤️❤️❤️

“ I didnt know trevor very well, but the week I spent with him at the hospital inJanuary, we helped each other, he was so kind, sweet, like I had known him for a life time. We both made a deal, that if either one of us ever felt like jumping, to call the other one, I wish I would of gotten a call from him. My heart goes out to his family. You raised a very special youngman, but I hope now his demons are gone and hes at peace. He will be missed, it shows he was loved by alot of people. R.I.P. my friend.

“ *Worked with Murphy at Critical Care Transport, One take away from Murphy is no matter how bad day was getting with low staff numbers or busy day it's to look at the positive parts and keep looking ahead. That is something after we both stop working together I have and will continue to do for rest of my life. Prayers to your family Murphy and til I can see you again.*
